PROFIL

Hello world! I am a backend and frontend developer with about two months of experience in building websites. I like building apps that can help others. I maintain an unwavering dedication to continuous self-improvement. I continually expand my skill set by exploring diverse frameworks and programming languages. My other hobbies include: reading book, gaming and ...!

EXPERIENCE

[Weather app](#)

EDUCATION

Najot Ta'lim - Full Stack course

September 2022 - October 2023

At Najot Ta'lim, I completed several foundational courses in addition to an intensive Full-Stack Web Development program
